DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

1. Claim 1 generic to the following disclosed patentably distinct species:

Species to be elected for the attaching means for attaching fuel cell stack to body of manifold frame

A species for the attaching means to be selected from the group consisting of:

- A) A pair of end plates pulled toward each other by a long insulate bolts
- B) A tough box with screw holes
- C) A tough belt with screw holes

Species to be elected for the main passages

A species for the main passage to be selected from the group consisting of:

- A) The main passages are not through passages through the manifold frame
- B) The main passages are through passages through the body of manifold frame

2. The species are independent or distinct because they are mutually exclusive and do not overlap in scope.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this

requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. A telephone call was made to Raymond Chan on 2/27/07 to request an oral election to the above restriction requirement, but did not result in an election being made.
